REGULATORY UPDATES

During the year under review, SEBI has brought several reforms strengthening the operational framework and risk management in commodity exchanges, making the commodities market better in terms of integrity, reliability and aid it going forward. The presence of SEBI as the market regulator is expected to help further increase the confidence in the market and trust amongst all the financial and commodity markets ecosystem, stakeholders and make the commodity markets more vibrant and build a level-playing field across both the commodities and securities markets.

Further, the Hon'ble Union Finance Minister, while presenting the Union budget for the F.Y. 2017-18, proposed that the commodities and securities derivative markets will be further integrated by integrating the participants, brokers, and operational frameworks.

For smoother implementation of the convergence it was decided to be achieved in two phases. In Phase-I, it was proposed to have integration at Intermediary level. In Phase-II, necessary steps would be taken to enable a single Exchange to operate various segments such as equity, equity derivatives, commodity derivatives, currency derivatives, interest rate futures & debt etc.

With regards to Phase-I, all necessary steps required to enable integration of commodity derivatives market with rest of the securities markets at intermediary's level have already been taken by SEBI.

In order to implement Phase II i.e. to permit trading of commodity derivatives and other segments of securities market on single Exchange, the SEBI in its Board Meeting dated December 28, 2017 approved the proposal to remove the restrictions by making suitable amendments to Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporation) Regulations, 2012 ("SECC12/28/2017 Regulations"). The amendments to the SECC Regulations, 2012 are effective from October 1, 2018. i.e. integration of trading in commodity derivatives market with segments of securities market such as equity, equity derivatives, currency derivatives, interest rate futures & debt etc. at Exchange level are effective from October 1, 2018 subsequent to amendments in SECC (Regulations).

Further SEBI vide its circular dated June 13, 2017 permitted to introduce trading in options. Options can be launched on futures contract of only those commodities that are among the top five in terms of total trading turnover value of previous twelve months and having the average daily turnover of underlying futures contracts of such commodity during the previous twelve months of at least ₹ 200 crore for agricultural and agri-processed commodities, and ₹ 1,000 crore for other commodities. SEBI has also stipulated necessary guidelines with regard to the product design and risk management framework to be adopted for trading in options on commodity future.

Annexure-2 to the Independent Auditor's Report of even date on the financial statements of Indian Commodity Exchange Ltd.

<u>Report on the Internal Financial Controls under Section 143(3)(i) of the Companies Act, 2013</u> ("the Act")

We have audited the internal financial controls over financial reporting of **Indian Commodity Exchange Ltd.**("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company comprising of the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended.

Management's Responsibility for Internal Financial Controls:

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility:

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting and the Standards on Auditing, issued by the ICAI deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those standards and the Guidance Note that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting :

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion, subject to a few areas in which improvement, as discussed and agreed with the management, is required, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. Summary of Significant Accounting Policies:

a) Basis of accounting and preparation of financial statements:

The financial statements are prepared under the historical cost convention on an accrual basis in accordance with the Generally Accepted Accounting Principles in India ("GAAP") and in compliance with Accounting Standards (AS) as notified under the Companies (Accounting Standards) Rules, 2006, as amended. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

b) Use of Estimates:

The presentation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities on the date of the financial statements and the reported revenue and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from those estimates and assumptions used in preparing the accompanying financial statements. Differences between the actual results and estimates are recognised in the year in which the results are known / materialized

c) Tangible assets:

Tangible assets are stated at cost net of tax/duty credits availed, if any, less accumulated depreciation and impairment losses, if any. Cost includes cost of acquisition including incidental expenses related to the acquisition and installation of the respective assets.

Subsequent expenditure related to an item of tangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing tangible assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Gains or losses arising from de-recognition of tangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss as and when the asset is derecognised.

Notes forming part of financial statements as at March 31, 2018

d) Intangible assets

Intangible assets are recognized only if it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the assets can be measured reliably. Expenditure on an intangible item is expensed when incurred unless it forms part of the cost of intangible asset that meets the recognition criteria. Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization and impairment loss, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the Statement of Profit and Loss in the year in which the expenditure is incurred.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

The Goodwill arising on Merger is amortised and is tested for impairment if indicators of impairment exist. The same is amortised over a period of five years in equal annual instalments.

Technical knowhow for obtaining various technical contracts for development and implementation of systems on the Exchange are considered as intangible assets in accordance with Accounting Standard 26 "Intangible Assets" issued by The Institute of Chartered Accountants of India and are amortized on a Straight Line Basis for a period of five years or as mentioned in any specified agreement, whichever is less, which is management's estimate of its useful life.

e) Depreciation on assets

Depreciation on tangible assets is provided as per the manner prescribed in Schedule II to The Companies Act, 2013. Leasehold improvements are depreciated over the unexpired period of respective leases.

Depreciation on additions / deletions to tangible assets is provided on pro-rata basis from / till the date the asset is put to use / discarded. Individual assets costing less than \gtrless 5,000/- are fully depreciated in the year of purchase.

Intangible assets are amortised on a straight line basis over the estimated useful economic life, from the date the assets are available for use.

The Company provides pro-rata depreciation from the day the asset is ready to use and for any asset sold, till the date of sale.

f) Impairment of Assets:

At each Balance Sheet date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the Company estimates the recoverable amount of the asset or the cash generating unit. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If, at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the re-assessed recoverable amount. Impairment losses previously recognised are accordingly reversed.

g) Investments:

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non-current investments.

Current investments are carried in the financial statements at lower of Cost and Fair value determined on an individual investment basis. Non-current investments are carried at cost. However, provision for diminution in value is made to recognise a decline, other than temporary, in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Notes forming part of financial statements as at March 31, 2018

h) Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

(i) Admission Fees collected from new members for joining the Exchange are recognized once the membership is approved by membership committee. Processing and other fees collected from members are recognized on receipt basis.

(ii) Revenue from Transaction fees is determined based on underlying trades and are accrued on the trade date of the underlying transactions.

(iii) Income from Annual Subscription Fee and other membership charges are recognised on accrual basis.

(iv) Income from Connectivity charges is recognised on accrual basis over the period during which connectivity services are provided to the members of the Exchange.

(v) Interest income is recognised on accrual basis.

(vi) Dividend income on units of Mutual Funds is recognised when the right to receive dividend is unconditionally established by the reporting date.

(vii) Profit / loss on sale of investments are recognised as the difference between the sale proceeds and the carrying amount of investments.

(viii) Income from Penalty charges, to the extent permissible to be retained by the Company, is recognised as income, on accrual basis.

i) Foreign Currency Transactions:

(i) Initial Recognition:

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion:

Foreign currency monetary items are converted at the year end to the reporting currency using the closing rates at the reporting date. Non monetary items which are carried at historical cost denominated in foreign currency are reported at cost using the exchange rate as at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

(iii) Exchange Differences:

Exchange differences arising on the settlement of monetary items at rates different from those at which they were initially recorded are recognised as income or expense in the year in which they arise except those arising from non-integral operations.

Exchange differences arising on a monetary item that in substance forms part of the Company's net investment in a non-integral foreign operation are accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognised as income or expense.

Notes forming part of financial statements as at March 31, 2018

j) Taxes on Income:

Taxes on income are accounted for in accordance with Accounting Standard 22 "Accounting for Taxes on Income", (AS 22). Tax expense comprises of current tax and deferred tax.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with the relevant tax regulations.

Deferred tax resulting from timing differences between book and tax profits is accounted for at the current rate of tax / substantively enacted tax rates as on the Balance Sheet date, to the extent that the timing differences are expected to crystallise.

Deferred Tax Assets are recognised where realisation is reasonably certain, whereas, in case of carried forward losses or unabsorbed depreciation, deferred tax assets are recognised only if there is virtual certainty of realisation supported with convincing evidence. Deferred Tax Assets are reviewed for the appropriateness of their respective carrying values at each Balance Sheet date.

Minimum Alternate Tax (MAT) provided in a year is charged to the Statement of Profit and Loss as current tax. The Company (NMCE) recognizes the MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay the normal income tax during the specified period i.e., period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes the MAT credit as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternative Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period

k) Borrowing Cost:

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of cost of the asset. All other borrowing costs are charged to revenue.

1) Provisions, contingent liabilities and contingent assets:

Provisions are recognised only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent liability is disclosed for:

(i) Possible obligations which will be confirmed only by future events not wholly within the control of the Company, or

(ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation can not be made.

(iii) Contingent Assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised.

m) Earnings per share

In determining basic earnings per share, the Company considers the net profit / (loss) after tax and includes the post-tax effect of any extra-ordinary items. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the year. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Notes forming part of financial statements as at March 31, 2018 n) Employee Benefits:

The Company's contribution to Provident Fund is charged to the Statement of profit and loss for the year when the contributions are due. The Company (ICEX) has unfunded defined benefit plans namely, Compensated Absences and Gratuity for all the employees, the liability for which is determined on the basis of actuarial valuation on yearly basis using Projected Unit Credit Method. Actuarial gains and losses are recognised immediately in Statement of Profit and Loss.

Actuarial gains and losses for both defined benefit plans are recognised in full in the period in which they occur in the Statement of Profit and Loss.

o) Leases:

In case of operating lease, the lease rentals are charged to the Statement of profit and loss in accordance with Accounting Standard (AS) 19 – Leases as notified by the Companies (Accounting Standards) Rules, 2006.
